OBJECTIVE

🚀 **Innovative Full Stack Developer** with **4+ years** of experience building scalable, secure, and high-performing web applications across fintech, healthtech, and edtech domains.

🎨 **Frontend Enthusiast**, skilled in Angular (12–18.1), HTML5, CSS3, JavaScript, and TypeScript — bringing design ideas to life with clean, responsive, and intuitive interfaces.

🧠 **Backend Strategist**, experienced in creating RESTful APIs, integrating third-party services, and working with databases like MySQL, MongoDB, and PHPMyAdmin.

🧪 **Tech Explorer**, quick to adopt new technologies like AdonisJS and blockchain, with a focus on writing efficient, reusable, and testable code.

🤝 **Collaborative Team Player**, known for effective communication, agile development, and driving projects from concept to production.

🎯 **Goal-Oriented Professional**, committed to continuous learning and delivering user-centric solutions that make a real impact.

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

March 2024 – Oct 2025

Finmet Software Technologies Private Limited Coimbatore.

Key Achievements:

- Developed and deployed four major projects — **PMLA**, **E-Gold**, **IoT** Tracker, and **BT Dashboard** — on AWS EC2, focusing on performance, scalability, and security.
- Integrated **AI ChatGPT** into the Screenmate platform for assistant creation, messaging, and dynamic response handling for clients.
- Collaborated with **QSEAP** (a **VAPT** testing firm) for **API security** assessments, vulnerability fixes, and end-to-end testing enhancements.
- Learned and implemented **AdonisJS** framework features including CORS handling, web authentication, migrations, and RESTful APIs.
- Wrote and maintained automation test cases for backend functionalities, boosting test coverage and overall product quality.

Full Stack Web Developer

May 2023 – March 2024

India Health Link Private Limited Chennai.

Key Achievements:

- Spearheaded the development and integration of a comprehensive medical coding system into the organization's **healthcare application (hPod) ,** enhancing the userexperience and enabling efficient management of vital test results.

- Collaborated with a cross-functional team to implement and optimize medical-basedcodes such as Blood Pressure (BP), Bone Mineral Content (BMC), Electrocardiogram (ECG), and other vital tests within the application.

- Led the integration of the **Ayushman Bharat Health Account (ABHA)** project, incorporating advanced analytics and data visualization tools to provide users withinsightful interpretations of their health metrics.

- Developed and implemented a solo project using **Angular 16, Typescript and JavaScript,** building the application from scratch to empower users with seamlessaccess to their vital test results. This project involved user-friendly interfaces and interactive visualizations, enhancing overall user engagement.

- Conducted thorough testing and debugging processes, ensuring the accuracy andreliability of the medical coding and **ABHA** project implementations.

Technologies Used:

Angular 16, JavaScript, HTML5, CSS3, RESTful APIs, ABHA analytics tools, Medicalcoding standards (BP, BMC, ECG and other vitals tests), Agile methodologies.

Junior Web Developer

Feb 2022 – May 2023

Farazon Software Technologies Private Ltd Coimbatore.

Key Achievements:

- Developing, Designing and Integrating Angular Based applications. Developed Responsive website based on client requirements.
- Developing Website application using **Angular**, **HTML**, **CSS**, **JavaScript**, **Typescript**, and **Restful Web Services**.

- Implemented **Push Notification** Concept, **Bulk Email** Concept and **Email Triggering**. Created RESTful web services for GET, POST, PUT and DELETE requests.
- Developed clean code, drive technical design, developed an efficiency, quality data, scope, operability and flexibility of applications.

- Experienced server and desktop user of Linux environments including Ubuntu,Arch, and their derivatives.
- Involved in all phases of Software Development Life Cycle (SDLC) like gathering the requirements, analysis, design, development, unit testing and deployment of the project.

Achievements in **Farazon Software Technologies**

Website Applications

Farazon CRM – Quote generation for company products.

- https://farazon.com/
- https://farazon.com/crm/#/login

School CRM – Student creation, Fee receipt generation, Bulk Email, Payment portal.

- https://www.peepalprodigy.in/
- https://rabbitcrm.com/school/parent/login

Rest Api Service Support for Mobile Application

Faraday One App - Management and Employe connection app includes Notification

Farazon Todo App – Task Reminder App included Email and Push Notifications.

JOURNAL PUBLISHED

GENIUNE PRODUCT VERIFICATION SYSTEM USING BLOCKCHAIN TECHNOLOGY

A journal paper published in International Journal of Advance Research and Innovative Ideasin Education (**IJARIIE)**

INTERNSHIPS

Shaish Info Solution Private Limited, Chennai **April 2021 – July 2021**

Successfully Completed the Internship in JAVA domain and had been exposed to differentprocesses and functions.
Role: Developing Front End (UI) using HTML, Java Servlets and JSP.

EDUCATION

B.E - Computer Science and Engineering **2018 - 2022**

Sri Ramakrishna Institute of Technology, Coimbatore.Graduated with **8.5 CGPA**

TECHNICAL SKILLS

- HTML, CSS, Bootstrap, Angular.JS, JavaScript, Node.JS, Angular 8 above...
- Python, JSON, REST API, PHP, SQL
- Block Chain Technology, Java
- GitHub, Bitbucket
- MongoDB Database.
- Windows, Ubuntu, Mac.
- Visual Studio, Code Block, Jupiter, Anaconda

ACHIEVEMENTS

- **Certified in Programming Techniques**

  First rank at the level out of 135 students passed in the university examination Certification by **Bharathidasan University, Trichy - 3/2013**

- **Certified and Merit in Python**

  Successfully completed the technical skills on C Language with 100% Certification by
  Dr.D.Y. Patil Institute of Technology - 5/2020

- **Certified and Merit for Successfully completed in**

  1. Data Structures with 92%,
  2. DBMS with 88%,
  3. Java with 76%,
  4. C Language with 64%.

INTERESTS

- Logical Thinking in Programming and Techniques.
- Learning New Upcoming Technologies and its Techniques and Implemented day by day.
